U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
On February 23, 1975
- Export shipments in
Current Marketing Year
- Daily Sales reported
February 24 - March 4, 1975

--As Reported by Exporters

Readers of this release are cautioned that it reports sales commitments outstanding as of the date indicated, all of which are subject to modification, deferral or cancellation by mutual agreement of the parties. It is unlikely that all reported quantities will be exported. Our experience with this monitoring system suggests that sales are apt to exceed exports, sometimes by substantial amounts, during periods when supplies are in balance with expected demand. Actual shipments to date may provide a more reliable measure of current export activity. A meaningful export projection is not obtainable by the simple device of adding outstanding sales commitments to exports to date.

U.S. DEPARTMENT OF AGRICULTURE, FOREIGN AGRICULTURAL SERVICE

EXPORT SALES REPORT

Comments on release of March 6, 1975 (based on reports from exporters during the week ending February 23, unless otherwise noted):

Wheat: There was a 314,500 metric ton (MT) increase in the reported apparent export commitment (cumulative exports plus outstanding sales) for 1974/75. Higher commitments were reported for Egypt (127,500 MT), the Republic of Korea (110,000 MT), Japan (66,700 MT), and Brazil (50,000 MT). The only major decline in reported commitments was Iran (69,800 MT). Under the daily system for the period February 24 - March 4, an additional export sale of 100,000 MT to the Republic of Korea was reported. Reported sales to India for 1975/76 delivery jumped 364,600 MT as reported under the weekly system, and another 101,600 MT under the daily system during the February 24 - March 4 period. Total reported commitments to India for 1975/76 now total 973,000 MT.

Feedgrains: The apparent export commitment for 1974/75 declined 417,500 MT. Total corn commitments fell 442,200 MT, largely because of lowered commitments to unknown destinations (534,100 MT), Japan (87,400 MT), and the EC (116,800 MT), and was the third consecutive weekly decline. A higher commitment was reported to Mexico (138,000 MT). In addition, total new sales of 73,500 MT to Spain were reported under the daily system during the period February 24 - March 4. Total sorghum commitments increased 9,900 MT.

Rice: Apparent export commitments for 1974/75 increased by 19,700 MT, less than half the weekly rate necessary to meet the current export projection.

Soybeans: Soybean prices, c.i.f. European ports, declined to their lowest level of the season (\$210 per MT or \$5.70 per bushel). Crushing margins deteriorated further, particularly in late February. Apparent export commitments declined by 310,000 MT, reflecting sharply lower product prices. Several EC countries and Japan again sharply reduced commitments.

Soybean Meal: Prices on the European market declined to their lowest level of the season, falling below \$130 per MT by the end of February. Weekly exports totaled 102,600 MT, including the EC (64,200 MT), Poland (23,100 MT), and East Germany (11,000 MT). Poland's state trading agency, ROLIMPEX, reports delivery commitments for 260,000 MT for U.S. soybean meal, including 98,130 MT shipped through mid-January 1975. The USDA estimate of exports to Poland for MY 1974/75 is 295,000 MT.

Soybean Oil: Vegetable oil prices recorded sharp declines, reaching season lows by the end of February. European quotations in U.S.\$ per MT, were as follows: soybean oil \$529, palm oil \$434, sunflower oil \$740. Sunflower oil prices declined by nearly \$300 per MT between February 12 and February 28, 1975, apparently more in response to general movement in fats and oils than any reported increase in supplies.

Cotton: The 1974/75 export commitment dropped 191,000 running bales (RB). Weekly exports were at a 1974/75 season high of 137,000 RB. The People's Republic of China apparently negotiated for cancellation of 233,000 RB. Bangladesh, the People's Republic of China, and South Korea were the leading export destinations during the week with liftings also of note to Korea, the Republic of China (Taiwan), and Romania. Apparent new commitments were registered in several countries, including the Republic of China, Italy, Spain, and Japan. Seasonal exports thus far total 1,825,000 RB, half of USDA's projected exports.
